Beyond the Lawn: Unique Outdoor Spaces for Modern Living, by Keith Davitt (Rockport Publishers, \$30, hardcover)

Tired of being a slave to that green carpet in your yard? Do you enjoy gardening but

don't have much space to work with? Would you like to have a water-saving, pesticide-free, natural-looking yard that also happens to look great? This refreshing book offers a wealth of ideas for nontraditional outdoor spaces that are as beautiful as they are low maintenance.

Written by veteran landscape designer Keith Davitt, this guide shows how to create lovely outdoor spaces that replace the traditional grass lawn with rock walls, sculptures, water features, native grasses, mosses, wildflowers and more.
